About the Healthcare Privacy Compliance Academies

Our Healthcare Privacy Compliance Academies help you navigate the broad spectrum of privacy compliance topics that affect healthcare organizations. Explore the latest laws, regulations, and developments to help you effectively manage compliance programs at your organization.

Who Should Attend?

Our academies are designed for participants with basic knowledge of and professional experience in healthcare privacy compliance. This includes privacy officers, data privacy personnel, compliance officers, internal auditors, and in-house or external compliance lawyers.

Why Should You Attend?

More than 2,600 compliance professionals have turned to our Healthcare Privacy Compliance Academies to learn best practices and industry trends. Our Academies are not conferences. Instead, they provide in-depth, classroom-style training in healthcare privacy compliance along with great networking opportunities.

The Healthcare Privacy Compliance Academies also:

- Cover the basic healthcare compliance training you need, including HIPAA privacy, electronic health records, policies and procedures, risk assessment, auditing and monitoring, the Federal Privacy Act, data security, privacy investigations, and breach notifications

- Are taught by compliance professionals, hand-selected for their experience and teaching skills

- Limit enrollment to 75 participants per academy, ensuring personal interaction with our expert faculty

- Provide opportunities to network with both faculty and peers at a networking event and during training breaks.

What Will You Receive?

Course materials are provided onsite on the first day of the Academy. This includes a binder that contains all course materials.

2019 attendees will also receive a free copy of the *Health Care Privacy Compliance Handbook* (normally $200).

Becoming Certified

Why do people add JD, MBA, or CPA after their name? Because they know those initials add credibility. Become Certified in Healthcare Privacy Compliance (CHPC®) by taking the optional exam on the last day of the Academy.

More than 1,400 compliance professionals around the world have earned a CHPC designation. By taking and passing the certification exam, you will not only join this distinguished group, but also help to further the development of the healthcare compliance profession.

Learn More

Please visit hcca-info.org to learn more about the Healthcare Compliance Academies and HCCA's other programs.

To receive CHPC certification, you will need:

- At least one year of full-time experience in the profession or 1,500 hours within the past two years

- 20 hours of continuing education units (CEUs) in compliance within the 12 months prior to your exam date; the Healthcare Privacy Compliance Academy can provide all the credits you need, although it is not a preparation class for the exam itself

- A passing score on the CHPC certification exam.

The exam is optional and a separate application and fee is required. For more information, visit compliancecertification.org and click on the "CHPC" tab.
