Access Guidance

HIPAA Right of Access Guidance

- Issued in two phases in early 2016
 - Comprehensive Fact Sheet
 - Series of FAQs
 - Scope
 - Form and Format and Manner of Access
 - Timeliness
 - Fees
 - Directing Copy to a Third Party, and Certain Other Topics

Health & Human Services

Office for Civil Rights

Access Guidance

Access – Scope

- Designated record set broadly includes medical, payment, and other records used to make decisions about the individual
 - Doesn't matter how old the PHI is, where it is kept, or where it originated
 - Includes clinical laboratory test reports and underlying information (including genomic information)

United States Department of
Health & Human Services

Office for Civil Rights

Access Guidance

Access – Scope (cont.)

- Very limited exclusions and grounds for denial
 - E.g., psychotherapy notes, information compiled for litigation, records not used to make decisions about individuals (e.g., certain business records) BUT underlying information remains accessible
 - Covered entity may not require individual to provide rationale for request or deny based on rationale offered
 - No denial for failure to pay for health care services
 - Concerns that individual may not understand or be upset by the PHI not sufficient to deny access

United States Department of
Health & Human Services

Office for Civil Rights

Access Guidance

Access – Requests for Access

- Covered entity may require written request
- Can be electronic
- Reasonable steps to verify identity
- BUT cannot create barrier to or unreasonably delay access
 - E.g., cannot require individual to make separate trip to office to request access

United States Department of
Health & Human Services

Office for Civil Rights

Access Guidance

Access – Form and Format and Manner of Access

- Individual has right to copy in form and format requested if “readily producible”
 - If PHI maintained electronically, at least one type of electronic format must be accessible by individual
 - Depends on capabilities, not willingness
 - Includes requested mode of transmission/transfer of copy
 - Right to copy by e-mail (or mail), including unsecure e-mail if requested by individual (plus light warning about security risks)
 - Other modes if within capabilities of entity and mode would not present unacceptable security risks to PHI on entity’s systems

Health & Human Services

Office for Civil Rights

Access Guidance

Access – Timeliness and Fees

- Access must be provided within 30 days (one 30-day extension permitted) BUT expectation that entities can respond much sooner
- Limited fees may be charged for copy
 - Reasonable, cost-based fee for labor for copying (and creating summary or explanation, if applicable); costs for supplies and postage
 - No search and retrieval or other costs, even if authorized by State law
 - Entities strongly encouraged to provide free copies
 - Must inform individual in advance of approximate fee

Access: Designated 3rd Party

Third Party Access to an Individual's PHI

- Individual's right of access includes directing a covered entity to transmit PHI directly to another person, in writing, signed, designating the person and where to send a copy (45 CFR 164.524)
- Individual may also authorize disclosures to third parties, whereby third parties initiate a request for the PHI on their own behalf if certain conditions are met (45 CFR 164.508)

Cloud Guidance

Cloud Computing Guidance

- OCR released guidance clarifying that a CSP is a business associate – and therefore required to comply with applicable HIPAA regulations – when the CSP creates, receives, maintains or transmits identifiable health information (referred to in HIPAA as electronic protected health information or ePHI) on behalf of a covered entity or business associate.
- When a CSP stores and/or processes ePHI for a covered entity or business associate, that CSP is a business associate under HIPAA, even if the CSP stores the ePHI in encrypted form and does not have the key.
- CSPs are not likely to be considered “conduits,” because their services typically involve storage of ePHI on more than a temporary basis.

HIPAA Breach Highlights

September 2009 through February 28, 2017

- Approximately 1,849 reports involving a breach of PHI affecting 500 or more individuals
 - Theft and Loss are 50% of large breaches
 - Hacking/IT now account for 15% of incidents
 - Laptops and other portable storage devices account for 28% of large breaches
 - Paper records are 22% of large breaches
 - Individuals affected are approximately 171,569,574
- Approximately 279,157 reports of breaches of PHI affecting fewer than 500 individuals

- United States Department of Health & Human Services
Office for Civil Rights
- What Happens When HHS/OCR Receives a Breach Report
- OCR posts breaches affecting 500+ individuals on OCR website (after verification of report)
 - Public can search and sort posted breaches
 - OCR opens investigations into breaches affecting 500+ individuals, and into number of smaller breaches
 - Investigations involve looking at:
 - Underlying cause of the breach
 - Actions taken to respond to the breach (including compliance with breach notification requirements) and prevent future incidents
 - Entity's compliance prior to breach

Recurring Compliance Issues

Recurring Compliance Issues

- Business Associate Agreements
- Risk Analysis
- Failure to Manage Identified Risk, e.g. Encrypt
- Lack of Transmission Security
- Lack of Appropriate Auditing
- No Patching of Software
- Insider Threat
- Improper Disposal
- Insufficient Data Backup and Contingency Planning

United States Department of
Health & Human Services

Office for Civil Rights

Corrective Action

Corrective Actions May Include:

- Updating risk analysis and risk management plans
- Updating policies and procedures
- Training of workforce
- Implementing specific technical or other safeguards
- Mitigation
- CAPs may include monitoring

United States Department of
Health & Human Services

Office for Civil Rights

Good Practices

Some Good Practices:

- Review all vendor and contractor relationships to ensure BAAs are in place as appropriate and address breach/security incident obligations
- Risk analysis and risk management should be integrated into business processes; conducted regularly and when new technologies and business operations are planned
- Dispose of PHI on media and paper that has been identified for disposal in a timely manner
- Incorporate lessons learned from incidents into the overall security management process
- Provide training specific to organization and job responsibilities and on regular basis; reinforce workforce members' critical role in protecting privacy and security

Office for Civil Rights

Audit Program

HITECH Audit Program

- Purpose: Identify best practices; uncover risks and vulnerabilities not identified through other enforcement tools; encourage consistent attention to compliance
 - Intended to be non-punitive, but OCR can open up compliance review (for example, if significant concerns are raised during an audit)
 - Also hope to learn from this next phase in structuring permanent audit program

United States Department of
Health & Human Services

Office for Civil Rights

Audit Program

History

- HITECH legislation: HHS (OCR) shall provide for periodic audits to ensure that covered entities and business associates comply with HIPAA regulations. (Section 13411)
- Pilot phase (2011-2012) – comprehensive, on-site audits of 115 covered entities.
- 2013 – issuance of formal evaluation report
- 2016 – Phase 2 (ongoing) – between 200-250 onsite and “desk” audits of covered entities and business
