Billing and Revenue Integrity – How Do We Effectively Audit or Monitor?

Lori Laubach, CHC Partner Health Care Consulting

Today's Agenda

- · Definition of revenue integrity
- How is the Government looking at revenue integrity?
- Revenue integrity/compliance functions and potential gaps
 - Best practices and implementation of safeguards
 - Examples

What We Hear as the Revenue Integrity Program Goal

- Reduce amount of aging A/R and un-billed days
- Reduce number of claim hand-offs and claim edits requiring manual intervention
- Manage un-billed dollars by prioritizing high dollar claim follow-up $\,$
- Expedite cash flow by better managing claim edits and denials
- Identify issues requiring education with action plans and process modifications
- Eliminate repetitive problems by tracking claim edits
- Ensure accurate charge capturing
- Foster continuous improvement of revenue cycle processes through education $_3$

What is a Revenue Integrity and Compliance Program?

- Integration of revenue cycle functions and compliance responsibilities of an organization
- Characteristics of a revenue integrity program include:

 - Oconsistent actions, values, methods, principles, expectations, and outcomes

 Achieve operational efficiency, compliance, and legitimate reimbursement

 Proper processes, tools, and related expertise aimed at effectively pricing, charging and coding for services related to patient care and billing

Revenue Integrity and the Seven Elements

Compliance Program Element	Revenue Integrity Characteristics	OIG Summary Description
Oversight	Governance, leadership, Revenue Integrity Committee	Designation of a chief Compliance Manager and other appropriate bodies, e.g., a corporate compliance committee, charged with responsibility of operating and monitoring the compliance program, and who report directly to CEO and governing body.
Standards and Procedures	Standards, written protocols, risk areas	Development and distribution of written standards of conduct, as well as written policies and procedures that promote the hospital's commitment to compliance (e.g., by including adherence to compliance as an element in evaluating managers and employees) and address specific areas of potential fraud, such as claims development and submission processes, code gaming, and financial relationships with physicians and other health care professionals.

Revenue Integrity and the Seven Elements (cont.)

Compliance Program Element	Revenue Integrity Characteristics	OIG Summary Description
Education and training	Training	Development and implementation of regular, effective education and training programs for all affected employees.
Effective lines of communication	Ability to detect areas of risk	Maintenance of a process, such as a hotline, to receive complaints, and the adoption of procedures to protect the anonymity of complainants and to protect whistleblowers from retaliation.
Responding to detected offenses and developing corrective action initiatives	Ability to detect areas of risk, corrective action plans	Development of a system to respond to allegations of improper/illegal activities and enforcement of appropriate disciplinary action against employees who have violated internal compliance policies, applicable statutes, regulations or Federal health care program requirements.

Revenue Integrity and the Seven Elements (cont.)

Compliance Program Element	Revenue Integrity Characteristics	OIG Summary Description
Audit and monitoring	Audit and monitoring	Use of audits and/or other evaluation techniques to monitor compliance and assist in the reduction of identified problem area.
Enforcing standards through well- publicized disciplinary guidelines	Disciplinary action, governance and collaboration	Investigation and remediation of identified systemic problems and the development of policies addressing the non-employment or retention of sanctioned individuals.
Proposed Elements		
Assessment of compliance program	Continual assessment of work flows	Regularly review the implementation and execution of compliance program systems and structures.
Data mining	Monitoring, predictive data modeling	Transparency, quality, and proactive monitoring of risks or gaps within an organization

What is the Government Doing Related to Revenue Integrity?

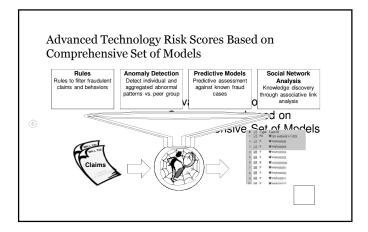

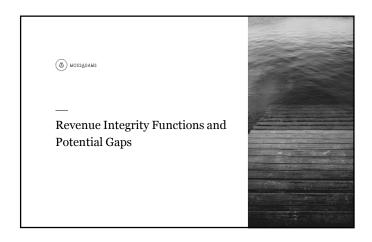

What Have We Seen?

- Administrative Determination Requests (ADR)
- Recovery Auditors (again)
- Comprehensive Error Rate Testing (CERT)
- · Focused Reviews

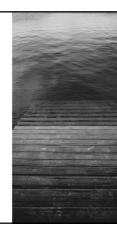

Structure and Culture for Process Efficiencies

- Right people
- How structured
- · Compliance collaboration
- Culture
- Accountability
- · Technology use

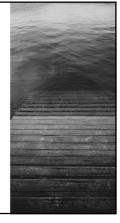

Gap Assessment

- Structure and culture for process efficiency
- Policies/procedures training
- · Audit and monitoring
- · Data mining
- Corrective actions

Potential Focus Areas

- Front End Patient Engagement
- Mid-Cycle Revenue Recognition
- Back Office Billing and Collection

Revenue Integrity
Program Elements

Revenue Integrity
Program Elements

Revenue Integrity
Procedure

Revenue Integrity

Policies and Procedures Revenue Integrity

_

- · Drafting work flows
- Demonstrated controls
- Accountability/measurement
- Implementation

Policies and Procedures Gap

Focused on work flow

- Regulatory updates not included
- · Training not completed
- Policies filed but not disseminated or people do not know where they are
- · Lack accountability/measurement

Education/Training Revenue Integrity

- Identify gaps in knowledge and the requisite need for coursework
- Inclusion of subject matter experts (SMEs)
- Development of educational materials that are researched and designed by the SMEs
- Utilization of workgroups in the design of educational material to ensure objectives for each area are being met

Education/Training Revenue Integrity

- Development of course outlines submitted and approved by management
- Participation of SMEs in external educational seminars on their respective assigned area
- Education of department heads on such areas as annual updates to CPT/HCPC code changes

20

Education/Training Gaps

- Lack of monitoring of education provided to assess effectiveness
- Regulatory support not explained
- · Dictated approach
- Punitive
- · Not vetted

Tracking and Trending Revenue Integrity

- Develop reports or tools to track and trend
- Management of data allows for immediate response
- Update in response to regulatory changes
- · Evaluate and explain

22

Tracking and Trending Gap

- · Reports not monitored "once fixed"
- Reviewed with compliance, risk or quality
- Patterns explained without investigating
- · Reports do not have current data
- · Not able to drill down to detail easily

23

Tracking and Trending Revenue Integrity

- Volume of accounts being stopped by edits to measure productivity and identify patterns causing delays in claims processing and payment
- Edits that are sourced to problems in the charge master
- Edits to identify specific payer requirements and implement changes for continual improvement and to eliminate manual interventions
 - Identify pre-bill and post-bill claim edits involving any type of clinical or coding review or required modifier based on services rendered

Tracking and Trending Revenue Integrity

- Identify return-to-provider claims that have issues with revenue code and CPT code/HCPCS combinations
- Track and trend denials by
 - Medical necessity
 - o Level of care
 - o Provider

25

Auditing & Monitoring Revenue Integrity

- · Develop comprehensive audit schedule
- · Scope of audit
- Performing regular charge capture and compliance audits based on the schedule
- Providing feedback to appropriate departments based on audit outcomes
- Assisting in the development of action plans designed to prevent issues

26

Auditing & Monitoring Gap

- $\bullet \ \ Audit\ scope\ creep$
- Review is focused on revenue not regulatory requirements
- Duplicate audits between departments
- Population/Universe not accurate or refined
- · Error/accuracy tracking
- Report control

Audit and Monitoring Establishment

- Review minutes for actions
 - o What areas can be audited?
 - o Include system or people changes
- Interview revenue integrity for work flow changes
- Examples:
 - o Clearinghouse edits implemented
 - o Front end data integrity audits
 - o Payment posting/underpayments

28

Monitoring Examples

- · Coding work queues
- · Denial management
- Claim scrubber
- Electronic monitoring reports related to work plan focus areas
- Evaluation and management coding distributions
- Excluded provider listing/background checks

29

Monitoring Examples (cont.)

- Teaching physician supervision requirements
- Modifier usage
- · Non-physician practitioner code use
- · Clinical quality measures

0			

Corrective Action Plans Revenue Integrity

- · Based on root cause of issue
- Collaboration with management to develop appropriate corrective action
 - o Specific
 - o Actionable
 - o Measureable
 - o Has a timeline

31

Corrective Action Plans-Gaps

- · Noted in minutes of RI Committee
- · No close out of CAP
- · Lacks ability to audit or monitor
- No repayment
 - · Lag in repayment

32

Reporting Results to Medicare/ Medicaid: The 60-day Refund Rule

Statute requires that any person who receives an overpayment from the Medicare or Medicaid programs — and who does not report and return an overpayment within 60 days after identification — will be subject to potential False Claims Act liability

<u> </u>

Examples	2
	V

Examples – Denial Management

- Review revenue integrity monitoring reports and minutes to determine
- Obtain denial management reports
- Obtain write off (adjustments) reports
- Select a sample of denials and include:
 - High dollar claims
 - o Denial reason not match service
 - o Medical necessity
 - Adjustments greater than 50% of expected reimbursement

Examples – Authorizations

- Review revenue integrity monitoring reports and minutes to determine actions
- Select a sample of admissions and include:
- o Required pre-authorization
- o Insurance
- o Uninsured
- Test the sample for the following:
 Pre-authorization obtained
- o Insurance checked
- o Uninsured qualifications
- o Duplicate patient

Examples – Utilization Review

- Review revenue integrity monitoring reports
- and minutes to determine actions
- Select a sample of admissions and include:
 - Medical necessity queries (or potential queries)
 - o Authorization should have been obtained
- Test the sample for the following:
 - Validation of subsequent authorization obtained
 - Notification of physician related to medical necessity

37

Examples – Utilization Review

- · High Producer
- o Rendering versus billing provider
- $_{\circ}$ Code met/not met based on documentation
- o Appointment schedule time
- Check in time of patient (roomed) or surgeon arrival time
- Check out time of patient or surgeon departure time

38

Key Takeaways

- Revenue integrity action plans are they monitoring?
- Audit planning and documentation
- · What are we testing
- Revenue integrity function is a vital component of a well designed compliance program
